In competitive sports, doping refers to the use of banned athletic performance-enhancing drugs by athletic competitors. This Code applies if the statutory objectives of AIFFF are breached, especially in cases of forgery, corruption and doping. The Centralised Registration System (CRS) shall be used to administer and monitor all domestic transfers of professional and amateur players. In case of amateur player whose term has expired as per the consent/retention form with the former club, then the new club does not need to upload the release letter of a player over the CRS, it added. International player transfers shall strictly adhere to the FIFA regulations concerning the same and the administrative process for such transfers shall involve the International Transfer Certificate (ITC) procedure, conducted exclusively via the FIFA Transfer Matching system (TMS). New Delhi, Dec 26 (IANS) The All India Football Federation (AIFF) cleared the confusion over the participation of amateur players in the Hero I-League 2021-22 on Sunday, saying they can only play if they are registered in the professional window. Administering or attempting to administer a prohibited substance or method to an athlete Complicity Prohibited Association registrations@the-aiff.com psd@the-aiff.com It is pertinent to note that FIFA has approved the AIFFF RSTP. The use of such substances is considered unethical, and therefore prohibited by most international sports organizations including the FIFA, documents related to AIFFF Disciplinary Matters. Find registered intermediaries Go to portal The All India Football Federation, in line with similar regulations adopted and implemented by FIFA, has created the Disciplinary, Code to provide for effective means to preserve and regulate the substantive and formal provisions governing the punishment for disciplinary offences falling within their scope of application. It refers to the transferring of a player's registration from one football club to another. An intermediary is a natural or legal person who, for a fee or free of charge, represents players and/or clubs in negotiations with a view to concluding an employment contract or represents clubs in negotiations with a view to concluding a transfer agreement. It describes the infringements, regulates the application of penalties, governs the actions of the disciplinary bodies and defines the procedure to be followed before these bodies. Only registered players are eligible to participate in organised football. Centralised Registration System Go to portal In football, a transfer is the action taken whenever a player moves between clubs. The AIFFF said that those players who want to play in the I-League will have to register in the professional registration window."As per the AIFFF Regulations on the Status and Transfer of Players 2021 (AIFFF RSTP) amateur players may only participate in professional competitions (i.e., the Hero I-League) should such amateur players be registered in the professional registration window.," the AIFFF said in a statement."Earlier this year a decision was taken that only professional players would be allowed to participate in the Hero I-League 2021-22. In case a player wishes to move to a new club, a release letter from the former club is required. The AIFFF, in a circular made to All Manipur Football Association, said that registration for clubs or academics for amateur players can be done for a maximum period of one season. However, keeping in mind the clubs being promoted from the 2nd division, the League committee created an exception to allow the participation of amateur players till the 31st of December 2021 if they were already registered with such clubs in a professional registration period as per the AIFFF RSTP," said the Indian football regulatory body."Following the recommendation of the League Committee, the matter was referred to the Players Status & Registration, and the Legal departments for their necessary inputs, who acted as per the statutes of the RSTP. The AIFFF further added that a player or a club can terminate the registration of an amateur player during the season. As per Article 5 of the FIFA Regulations on the Status and Transfers of Players, "a player must be registered at an association to play for a club as either a professional or an amateur in accordance with the provisions of Article 2. In this regard, the AIFFF is bound to respect its own rules which are in consonance with the FIFA RSTP," the statement read."Therefore, the AIFFF is not in a position to allow any amateur players registered outside the professional registration window to take the field for the Hero I-League 2021-22 till they sign professional contracts and register themselves as professionals in the second transfer window of the 2021-22 season which opens on January 1, 2022," the AIFFF said.--IANSInj/bsk ByIFP BureauUpdated on 9 Jun 2021, 6:21 am (Representational Image: IFP)The All India Football Federation has stated that clubs can register an amateur player for a maximum duration of one season and not more than that under any circumstances. The Amateur Consent Form 2021 (Form 1) and Amateur Retention Form 2021 (Form 2) can be availed on the registered e-mail of the clubs or academics on the notification of the CRS portal.First published:9 Jun 2021, 6:21 amTags:sportsfootballAIFFFamateur players In professional football, the relationship between clubs and players is based on contractual relationships and players routinely move from one club to another. Furthermore, athletes (or athletic programs) taking explicit measures to evade the detection exacerbates the ethical violation with overt deception and cheating. The primary objective of CRS is to keep track of all the player registrations, contract renewals and domestic player transfers in the country, thereby simplifying the processes and improving transparency. Doping is defined by World Anti-Doping Agency as the occurrence of one or more of the following anti-doping rule violations mentioned in the WADA/NADA Code: Presence of a prohibited substance or its metabolites or markers in an athlete's sample Use or attempted use by an athlete of a prohibited substance or a prohibited method Refusing to submit to sample collection after being notified Failure to provide information about the whereabouts or being unavailable for doping control Tampering with any part of the doping control process Possession of a prohibited substance or method. To view all AIFFF registered Intermediaries, click here. Trafficking a prohibited substance or method. By the act of registering, a player agrees to abide by the statutes and regulations of FIFA, the confederations and the associations." In order to comply with the above provision, the AIFFF implemented the Centralised Registration System (CRS), an online electronic information system, in the 2013-14 season. However if the club wishes to register the same players for a consecutive season, then either the player or club can ink an 'Amateur Retention Form' before the season ends or the clubs can sign a new 'Amateur Consent Form' in the new season with the player, it stated. Misrepresentation in players' documentation and duplication of profiles in the Centralised Registration System (CRS) shall view also be treated as serious violation of the Disciplinary Code. AIFFF in its aspiration to provide effective means to regulate and clarify the status and movement of players, has created the AIFFF Regulations for the Status and Transfer of Players ("Regulations"), in line with similar regulations adopted and implemented by FIFA. It also applies to every match and competition organised by AIFFF and for any breach of AIFFF regulations that does not fall under the jurisdiction of any other body. These regulations deal with the status and eligibility of players, as well as the rules applicable whenever players move between clubs belonging to different Member Associations affiliated to the All India Football Federation.
